MAKE SURE IT'S OLDFIELDS PAINTING MADE EASY

MANUFACTURING HIGH QUALITY PAINT BRUSHES,
ROLLERS & TOOLS FOR OVER 100 YEARS.

CEO WELCOME OLDFIELDS A PROUD TRADITION

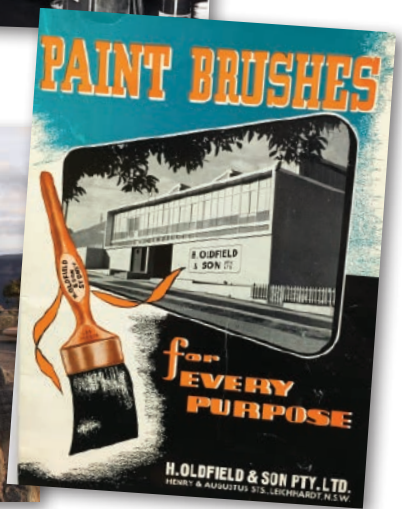

Welcome and we hope you enjoy the latest product catalogue in paint accessories from Oldfields. Established in 1916, this year marks our 100th year anniversary. We are very proud to be servicing many of our long term loyal and new customers. I would like to take this opportunity to thank you for your support and for making our company what we are today and what we hope to be in the future.

Oldfields has always ensured that the best possible service is provided to all customers and trade business partners. We remain proudly Australian and our roots date back to our Founder Henry Oldfield, who was a Master brush maker. When you use an Oldfields product we always guarantee our quality, whether you are a professional or a do it yourselfer. Quality has never and will never be compromised.

Oldfields offers an extensive range of paint equipment solutions, from paint brushes, paint rollers, paint kits, buckets, poles, tools and much, much more. We now have a range of Zippy Scaffold products to compliment the trade professional and home DIY painter. Oldfields offers an unparalleled range of high quality products at value for money.

We look forward to your support and are always happy to assist wherever we can. Enjoy!

Kind Regards
Tony Grima
CEO Oldfields

MONEY BACK GUARANTEE

If you are not 100% satisfied we will provide a full refund

OPTIONAL EXTRAS

Skylights: Polycarbonate panels that are easy to install on any garden shed by replacing a roof panel.

Window: Perspex and can be fitted easily to any garden shed to let in extra light and ventilation.

Corner Shelves: Galvanised Steel available in single units or sets of 2 or 3 and fitted in any shed.

Wall Length Shelves: MDF timber with steel reinforcing. Wall shelves go along the back wall of any shed in 1, 2 or 3 tiers.

Door Glides: Supplied in sets of 4.

CHOOSING A SHED

STYLE & SIZE: Always choose the biggest shed that will fit all of your items and fit in the desired location. Measure the space correctly and consider obstructions that may interfere with the construction of the shed, such as tree branches, other buildings, easements and the proximity to your neighbour's fence.

COLOUR: When considering colour, although personal preference is important, also consider choosing a colour that compliments your existing fence as well as trim colours on your fascia's and window frames of your house. If selecting a light colour link zinc, will sun reflection be an issue in the back yard. Please note that some local authorities do not allow zinc sheds because of this reason.

HOW TO ORDER: When selecting a shed please quote the model number, colour and the type of door, not forgetting to add any accessories you need.

DISCLAIMER: All sized quoted in this catalogue are nominal and usually refer to the roof size. Please check the catalogue for these dimensions. We have reproduced the colours as accurately as possible however we recommend you check an actual sample usually available from an authorised Oldfields dealer. Most accessories and/or props used in this brochure are not included with the product. Specifications in this catalogue may change without notice. We reserve the right to correct printing errors.

GABLE ROOF SHEDS

The Gable Roof is the most traditional Australian shed. It come standard with sliding doors, which are ideal where space is limited. Some models are also available in single or double hinged doors and 2 meter wall height as optional extras.

Zinc, Smooth Cream, Mist Green, Slate Gray & All Slate Gray colours available.

FEATURES:

- > The sloped roof of the gable shed diverts rain, sleet & snow away from the shed, preventing heavy build up on the roof.
- > A perfect ascetically appealing and functional addition to any backyard.
- > The additional height allows for better circulation and air flow inside the shed.
- > The gable allows for more headroom inside and more space to store taller items.
- > Used to store most outdoor items, lawn mowers, wheel barrows, pool equipment.

UTILITY SHEDS

The Utility shed is an economical and functional way to store your vehicle, boat, bikes or trailer. The roomy home garage or workshop has ample space for circulation space for construction, maintenance tasks or the serious handyman. The double hinged doors has an opening of 2.6m with an added skylight for additional natural light. A personal access door can be added.

Smooth Cream, Mist Green & All Slate Gray colours available.

FEATURES:

- > An economical and functional way to store your vehicle, boat, bikes or trailer.
- > An affordable and roomy home garage or workshop space.
- > Ample room for circulation space for construction, maintenance tasks or the serious handyman.
- > Extra wide door opening or 2.6m with an added skylight. A personal access door can be added.
- > Extra high walls available to allow a 4 wheel drive or boat to fit.

Surprising affordability combined with exceptional safety, makes our range of fibreglass a suitable alternative for electrical applications.

ALUMINIUM SYSTEM SCAFFOLDING
The most versatile scaffold money can buy. Compatible with the 2600 series decks.

MAINTENANCE & SAFETY TIPS

BASIC MAINTENANCE RULES

1. Take good care of the scaffold. The equipment should be kept clean, especially joints and moving parts. Components should fit together easily without the use of force.
2. All working parts should be lightly lubricated with light machine oil. For example, brace spring bolts, stabiliser / outrigger bolted connections, thread on castor leg adjustment.
3. Do not let parts fall to the ground. Such abuse may damage the equipment and reduce its load capacity or render it unserviceable.
4. Never modify the scaffold components without authorisation from the manufacturer.

BASIC SAFETY RULES

ZIPPY-SCAFF ALUMINIUM

LIGHT DUTY FOLDABLE SCAFFOLD - Quality mobile working platform designed for commercial and DIY use.

ZippyScaff foldable aluminium scaffold is an extremely versatile folding scaffold built with different trades in mind, including decorators, electricians, insulation contractors, plasterers and sign writers. Movement is easy, when folded up it can be wheeled through a standard doorway. Ready for use in seconds, it can also act as a trolley for moving equipment around the home, office, factory or work site. Alternate working heights can easily be achieved in seconds by adjusting the working platform.

FEATURES:

- > Australian Designed
- > Easy to assemble
- > Lightweight
- > Compact & Portable
- > Working load rated to 225kg
- > Foldable easy to erect and dismantle in seconds
- > Built-in ladder access
- > Adjustable deck heights from 0.4m – 1.9m
- > Deck assembly manufactured with slip resistant plywood

SPECIFICATIONS:

- > Base Unit (Overall): 1.96m Long x 0.74m Wide x 1.96m High
 - > Standing Heights: 0.4m/0.9m/1.2m/1.9m*/2.9m/8.39m
 - > Working load (Max): 225kg
 - > Weights: Base Unit 50kg (includes deck)
- Guardrail Extensions Pack 35kg
 Extension pack with Outriggers required as per AS/NZS 1576
 * AS/NZ1576 requires that all single width towers be fitted with outriggers when platform height is at 1.9meters and above.
